### SPPS 266 Veterinary Pharmacy

- **Section:** 918942
- **Instructor:** Karriker
- **P-Years Eligible:** 23
- **Units:** 3
- **Classroom:** 1182
- **Schedule:** Thursdays: 1:00 PM - 2:50 PM

This course introduces students to veterinary pharmacy, challenges in drug therapy, pharmacokinetic/pharmacodynamic variances, ethical issues, law and public health, and drug administration. Students will learn many aspects of serving veterinary patients through lectures, discussion, exercises, field visits and a project.

### SPPS 267 Pediatric Pharmacotherapy

- **Section:** 912838
- **Instructor:** Colbert
- **P-Years Eligible:** 3
- **Units:** 2
- **Classroom:** 1120
- **Schedule:** Tuesdays & Thursdays: 8:00 AM - 9:20 AM; 1st class is Tuesday, September 26

***P3s ONLY***

Through didactic lecture and case study discussions of common pharmaceutical care and chronic disease management challenges in the pediatric population, this elective provides students with specialized focus on Pediatric Pharmacotherapy. Reading materials and case studies will be drawn from clinical practice, primary literature, evidence-based medicine, and clinical practice guidelines.

### SPPS 270A Beginning Conversational Spanish for Pharm Students I

- **Section:** 912930
- **Instructor:** Garcia
- **P-Years Eligible:** 123
- **Units:** 3
- **Classroom:** 1170
- **Schedule:** Mondays & Thursdays: 3:00 PM - 4:20 PM

Designed to develop/enhance students’ working knowledge of medical/healthcare Spanish and cultural competency to facilitate communication with Spanish-speaking patients and families. Special emphasis on oral communication skills and clinical experiences. Open to beginners with no prior exposure to Spanish.
SPPS 272  Medicare Part D Outreach (Partners in D)

Section  912840

Course teaches/outreaches in Medicare emphasizing Medicare Part D. Students provided with the knowledge and skills necessary to provide comprehensive Medicare Part D education to the underserved elderly and to help Medicare beneficiaries navigate the complex Part D system.

Instructor    Painter
P-Years Eligible  123
Units   1
Classroom   1160
Schedule   Thursdays: 9/28, 10/05, 10/19, 3:00 PM - 6:00 PM

SPPS 278  Free Clinic Manager

Section  912842  *** Must have faculty permission to enroll ***  : Select four (4) units if also managed in Summer 2017.

Provides students the opportunity to work directly with an underserved population, provide patient education/counseling, and learn how to treat and manage chronic disease states that burden these communities. Students will receive administrative training in management, pharmacy operations and dispensing.

Instructor    Fricovsky
P-Years Eligible  23
Units   2-4
Classroom   n/a
Schedule   TBA

SPPS 286  Special Topics in Psychiatry

Section  921276

The Special Topics in Psychiatry is an elective course focusing on mental health disorders and dispelling the myths and stigma associated with mental health disorders. Topics that are currently not presented in required curriculum (e.g. Therapeutics) are highlighted.

Instructor    Lee
P-Years Eligible  123
Units   1
Classroom   1160
Schedule   Mondays: 3:00 PM - 3:50 PM

SPPS 297a  Special Studies - Law & Ethics Conference Leader

Section  912843  *** Enrollment determined by faculty ***

This is a 2-3 unit elective open to P3s and P4s who are 1) interested in Law and Ethics, 2) would like to take a focused review of California Pharmacy Law, and/or 3) have interest in facilitating and leading a conference to obtain conference teaching experience. Select three (3) units if also attending P1 class sessions.

Instructor    Jones
P-Years Eligible  34
Units   2-3
Classroom   TBD
Schedule   Tuesdays: 3:00 PM - 5:00 PM + occasional meetings
SPPS 297c  Special Studies - Administration Pharmacy (AMCP P&T)

Section  912844

This course is intended to give students an opportunity to hone a variety of skills including critical analysis, presentation and research skills while gaining a real world perspective of the pharmacy management process. Students will become familiarized in evaluating the available scientific, clinical and economic evidence for a new molecular entity, conduct a cost/benefit analysis, assess the impact on patient population outcomes and relate drug therapy choices to practice guidelines.

Instructor  Watanabe
P-Years Eligible  123
Units  2
Classroom  1186
Schedule  Mondays:  3:00 PM - 4:50 PM

SPPS 297i  Special Studies - Advanced Visualization of Drug-Macromolecule Structural Interactions

Section  918944

Advanced Visualization of Drug-Macromolecule Structural Interactions - This course will instruct students where to find and how to visualize structures of biologically important macromolecules, proteins and nucleic acids using computer software on their individual personal computers. In addition, cutting edge, advanced visualization resources available at UCSD: Calit2 Vroom 32Mpixel visualization wall, Calit2 StarCave and newly designed (to be completed by the end of 2016) VR classroom will be demonstrated to students and students will use them to visualize their individual macromolecular projects. These resources are currently insufficiently used for macromolecular visualization. This will allow students to acquire knowledge on manipulating macromolecular 3D structures essential for structure-based drug design.

Instructor  Radic
P-Years Eligible  123
Units  1
Classroom  1120
Schedule  Mondays:  October 2, 9, 16, 23, 30:  4:00 PM - 5:50 PM
